MAPPINGMASTER
Fast PMS

The Mapping Master **Channel Manager** is a cloud based system which allows accommodation providers one single platform to input their pricing, availability and terms and conditions. This information is then communicated to all your preferred distribution channels instantaneously. Any bookings or amendments made at any site are centrally synchronised across all. We currently have over 60 distribution channels connected. The system has been designed with ease of use in mind and will substantially increase occupancy levels and revenue growth.

LIST OF CONNECTED CHANNELS **Channel Manager**
